
MEDIA ALERT

Ethernet Alliance® Hosts IEEE Std. 802.3az™-2010 Energy Efficient Ethernet Interoperability Test Event

Participation is Open to Both Ethernet Alliance Members and Non-Members

WHAT: The Ethernet Alliance [Energy Efficient Ethernet Subcommittee](#) has announced it will host an Energy Efficient Ethernet (EEE) interoperability test event the week of June 20, 2011 in Durham, NH at the University of New Hampshire Interoperability Lab (UNH-IOL). The kick-off conference call is open to any interested parties and will be held this Friday, March 4. If you are interested in participating in this call, please contact admin@ethernetalliance.org.

The Ethernet Alliance invites both members and non-members to participate in this test event that will include interoperability testing of components and systems designed to be compliant to IEEE Std. 802.3az.

WHY: These test events help vendors create interoperable, market-ready products that interoperate to the IEEE Std. 802.3az.

WHEN: Conference Call for Interested Participants: Friday, March 4 at 9 AM PST
Event Dates (tentative): June 20-23, 2011

WHERE: UNH-IOL, Durham, NH

WHO: The EEE Interoperability Event is hosted by the [Ethernet Alliance](#).

REGISTER: To get more information, learn about participation fees and/or register for the EEE interoperability Event, please visit Ethernet Alliance [EEE Interoperability Test Event page](#) or contact admin@ethernetalliance.org.

Members of the media and analyst communities can email inquiries to press@ethernetalliance.org.

About the Ethernet Alliance

The Ethernet Alliance is a global consortium comprised of system and component vendors, end users, industry experts and university and government professionals who are committed to the continued success and expansion of Ethernet technology. The Ethernet Alliance takes Ethernet standards to market by supporting activities that span from incubation of new Ethernet technologies to interoperability demonstrations and education.
